MIS | BI | DATA ANALYTICS | PRODUCT & OPERATIONS

PROFESSIONAL SUMMARY

Data and business analytics professional with experience in MIS, business intelligence, operations, and product management. Skilled in turning business data into practical insights through reporting, dashboards, process analysis, and predictive analytics. Experienced with Odoo, Excel, SQL, Power BI, Tableau, Python, and statistical tools, with hands-on use of AI and automation to improve workflows and develop practical digital solutions. Strong at connecting data, business systems, and day-to-day operations to support better decisions and measurable improvements.

KEY SKILLS

- Data & Analytics: SmartPLS-4, SPSS, Minitab, Excel, SQL, R Script, ArcGIS (Basic), predictive analytics.
- Business Intelligence & Systems: Power BI, Tableau, Odoo (ERP/MIS), HRIS, Orange (basic machine learning).
- Programming: Python, SQL, R Script, Prompt Engineering.
- AI & Automation: Generative AI, AI-Assisted Problem Solving, Prompt Engineering, AI Workflow Automation, AI Product Prototyping, AI-Powered Analytics, No-Code/Low-Code AI Tools
- Business & Operations: Process optimization, Strategy development, Supply chain Coordination, Product Management.

PROFESSIONAL EXPERIENCE

MANAGEMENT INFORMATION SYSTEM (MIS) MANAGER | DOTZI (*January 2025 - Present* | *Chittagong, Bangladesh*)

A 360° digital marketing agency providing tailored solutions for businesses and startups.

- Built and manage a centralized MIS in Odoo to track campaign performance, client feedback, and operational KPIs across accounts.
- Integrated Odoo with Google Analytics, Facebook Insights, and Excel-based tools to produce weekly performance dashboards for stakeholders.
- Automated report generation within Odoo, cutting manual reporting time by roughly a third and speeding up campaign optimization decisions.
- Partner with marketing and design teams to align operational data with performance targets, keeping projects and campaigns on schedule.

OPERATIONS MANAGER | DRAFT TO VESSEL (*July 2024 - December 2024* | *Chittagong, Bangladesh*)

A creative agency specializing in branding, PR, and strategic product supply within Bangladesh.

- Managed end-to-end supply chain operations, including door-to-door delivery, air shipments (10-15 days), and sea freight (35-45 days), while ensuring LC/TT import compliance.
- Improved delivery timelines by 20% through vendor consolidation and refined tracking protocols.
- Built an operational dashboard in Excel and Google Sheets to monitor shipment status in real time.
- Formed partnerships with warehousing and logistics providers in Chittagong and Dhaka to improve inventory turnover.
- Led monthly operations reviews, aligning KPIs across marketing and creative teams to keep campaign delivery on track with client expectations.

PRODUCT MANAGER | MEXEMY (April 2024 - June 2024 | Remote)

An emerging ed-tech platform offering online course content and career advancement resources for Bangladeshi youth.

- Conducted market and competitive analysis that shaped product development strategy and contributed to a 20% increase in demand.
- Analyzed user feedback and implemented data-driven product changes, lifting user satisfaction by 30%.
- Negotiated instructor contracts, reducing associated costs by 10%.
- Managed the digital product portfolio, overseeing a team responsible for product lifecycle management.

ASSOCIATE, OPERATIONS & CLIENT MANAGEMENT | M/S AMANAT TIMBER ENTERPRISE (March 2022 - February 2024 | Chittagong, Bangladesh)

A one-stop wood solutions provider supplying a range of products from raw to finished.

- Managed client servicing and day-to-day operations, reducing supply chain delays by 25%.
- Maintained supplier relationships and developed value chain strategies that improved operational efficiency by 30%.
- Analyzed end-to-end supply chain processes to identify and resolve logistics bottlenecks.

EDUCATION

MSc in Data Analytics & Design Thinking for Business (2024-2025, East Delta University, Chittagong)

- Relevant Coursework & Projects: Predictive Analytics Using R Script, Data Visualization and Dashboards with Power BI & Tableau.
- Research Project: Built a Machine Learning model using Orange; evaluated a customer-loyalty model using Python, NumPy, and Pandas.
- Thesis: Factors Influencing Adoption Intention of MFS in Bangladesh among Youth & Young Adults; built a predictive model with machine learning algorithms.

BBA in Supply Chain Management & Marketing (2019-2023, East Delta University, Chittagong)

- CGPA: 3.24
- Thesis: Factors Influencing Customer Re-Visit Intentions towards Green Restaurants in Bangladesh.

LEADERSHIP & VOLUNTARY EXPERIENCE

- Executive Member, East Delta University Career Club (2 years) - Organized career workshops and events for 300+ students.

- Fundraising Executive, Nishtha Foundation (1.5 years) - Led a COVID-19 relief fundraising program that raised over 80,000 BDT.
- Lead Organizer, EDU Gaming Fest (June 2024) - Secured three sponsors, led an 18-member team, and managed 150+ registered participants, generating 27,000+ BDT over a 3-day event.
- General Member, Rotaract Club of Chittagong Heritage (1 year) - Participated in community service projects.
- ALOR DISHARI Volunteer Organization: Front Fighter Volunteer in The Year 2025
